Who we are

In 2026 NEO, eLEAF and 52impact
joined forces as Terramira.

Combining remote sensing, AI, data
science and domain expertise.

Providing **Earth Intelligence** for
evidence based decisions.

Based in Amersfoort, The Netherlands
and serving clients **across the globe.**

100+

Colleagues that
care

30+

Years of combined
experience

200+

Organizations trusting
our insights

50+

Countries where our
intelligence is used

OUR VISION

What we aim for.

A world where evidence-based insights
drive decision making — so humanity and
the planet can thrive together.

Impact in sight.

An aerial photograph of a landscape featuring a winding river, agricultural fields, and dense forests. The text is overlaid on this image.

OUR MISSION

How we make It happen.

We turn data into reliable, scalable, action-oriented Earth Intelligence — partnering with clients to tackle societal, economic and ecological challenges with confidence.

terramira

Impact in sight.

Sense. Reveal. Empower.

Using remote sensing data and AI, we detect, observe and monitor what matters. Turning signals into clear risks and opportunities.

Data

We detect and monitor objects, assets and environmental elements, using Earth Observation technology.

Crops

Buildings

Water

Trees

Surface

Intelligence

We turn the data into insights that reveal risks, impact and opportunities.

Agri Environmental Monitoring

Forest Impact Intelligence

Water Productivity Reporting

CSRD Compliance

Heat Stress Monitoring

Advisory

We guide clients from question to decision. Terramira combines data, domain expertise and strategic consulting.

1. Assessing your challenge

2. Finding the right solution

3. Understand impact & implementation
